

EXCIPIENTS DIVISION

In our Excipient Division, we supply high-quality pharmaceutical excipients essential for drug formulation and development. Recognizing the pivotal role excipients play in the efficacy and stability of pharmaceutical products, we ensure that our excipients adhere to the highest purity and safety standards. Our selection includes binders, fillers, disintegrants, lubricants, and more, catering to the diverse needs of formulation scientists.

EXCIPIENTS PRODUCTS	
Ammonium / Potassium Chloride	Sodium Stearyl Fumarate #USDMF 39364
Calcium Carbonate	Talcum Powder
Calcium Citrate / Maleate	Xanthan Gum
Carboxy Methyl Cellulose Calcium # USDMF 33649 # CDMF F20220000047	Zinc Sulphate BP
Citric Acid Monohydrate	Sodium Carboxy Methyl cellulose
CMC Sodium / Calcium	Povidone
CrosCarmellose Sodium # USDMF 32704 #CDMF F20210000602	Potassium Citrate
Cros Povidone XL / XL10	Starch
DI Calcium Phosphate [Dihydrate / Anhydrous / Powder / Granules]	Pregelatinized Starch
Magnesium / Calcium Stearate - 60/100 Mesh # USDMF 38148	Hydroxy Propyl Methyl Cellulose
Microcrystalline Cellulose [All Grades] 101 / 102 / 112 / 200 # USDMF 38147	Hydroxy Methyl Cellulose
Polyethylene Glycol (200 - 8000)	Di Sodium Edetate
Sodium / Calcium / Magnesium Chloride BP / USP	Lactose
Sodium Citrate	Magnesium Bisglycinate
Sodium Starch Glycolate [Potato & Maize] #USDMF 37308	Stearic Acid Powder
